

Printing & Copy Instructions

Recovery In Christ Ministries exists to make Christ-centered recovery resources available to anyone seeking freedom in Jesus Christ. All of these resources are designed to support personal recovery and to assist churches, ministries, institutions, and recovery groups in facilitating Christ-centered support meetings.

We freely provide these resources because recovery was freely given to us. Our desire is to remove barriers and make Christ-centered recovery available to anyone seeking hope, healing, and freedom through Jesus Christ.

These materials are copyrighted and all rights reserved to protect their integrity and ensure they remain available for Christ-centered ministry. Permission is granted to print, copy, and distribute these materials for personal use and non-profit ministry purposes. Please give Recovery In Christ Ministries credit when using these resources.

Whenever possible, we encourage churches, ministries, jails, missions, and recovery groups to freely use and distribute these materials in support of Christ-centered recovery outreach.

If printing budgets are tight, you may find it helpful to copy individual pages from the recovery workbook *Reaching Out to a Hurting World* for group discussion, mentoring, or one-on-one sponsoring. This is especially helpful in prison ministry settings.

When printing the entire workbook for group members, please maintain the print quality and overall appearance of the material. Local print shops are often much more affordable than big-box stores. Because the Expanded Edition workbook is substantially larger than the original, printing and placing it in a 3-ring binder may be the most economical option.

Digital PDF versions remain free on our website. Printed editions are also available through **Amazon** for those who prefer professionally bound copies (click link):

available at 

We also offer many additional downloads to support your group and ministry. The *Leadership Guide* provides a full year of structured Christ-centered recovery meetings, discussion topics, and leader resources. You will also find handouts, Group Readings (which may be printed and laminated), ministry forms, certificates for institutional outreach programs, recovery articles, and other ministry resources.

Use of our logo and ministry name is permissible when listing your meeting in a church bulletin or on a church website. We simply ask that the content and original intent of Recovery In Christ's outreach to the Twelve Step community not be altered. Christ-centered recovery should remain available to all who are seeking freedom in Jesus Christ.

If you would like your meeting listed on our website, simply provide the requested information through our contact form.

Recovery In Christ maintains official social media pages and groups where leaders and participants can connect, share encouragement, and stay informed about new resources. We invite you to join us online and become part of the larger Recovery In Christ community.
